GAZETTEER-INDEX OF THE WORLD

This alphabetical list of grand divisions, countries, states, colonial possessions, etc., gives area, population, index references, plate number on which same are shown on the largest scale. The mother country of colonial possessions is indicated in Italic abbreviations enclosed with parentheses. The index references indicate the location of the country, state or colonial possession on the accompanying maps; these references show the point on the map at which lines will converge if drawn to connect the respective marginal letters upon top and bottom and the numerals on either side of map. Capitals or seats of government are named.

In this list the separate states of the United States of America are indexed on the general map of the United States, page 33. The large separate state maps are, for quick reference, indexed in the list at top of this page.

1927 ESTIMATES OF POPULATION FOR THE UNITED STATES

The following estimates of population for the United States and the several states as of July 1, 1927 have been made by the U. S. Bureau of the Census. The total for the United States is based in part upon the available data regarding births, deaths, immigration and emigration. The population for the several states is arrived at by distributing the total increase for the United States since 1920 on the basis of the distribution of the increase between 1910 and 1920, except that no estimates are made for those states which showed a decrease in population from 1910 to 1920, or 1920 to 1925, the figure given in such case being the population in 1920 or 1925.

EXPLANATION

Numbered squares represent Units of area. The Unit of area in which each place is located, is shown in the accompanying Parcel Post Guide.

Using the Zone Scale below, measure from the center of the Unit in which the post-office of departure is located to the nearest boundary of the Unit in which post-office of delivery is located. With the distance in zones thus determined, the rate for any parcel of seventy pounds or less may be calculated from the table in the lower right-hand corner of this map. The *Zone* Scale may be reproduced on a separate slip of paper, or an ordinary foot rule, yard-stick or a blank sheet of paper may be used and applied to the *Zone* Scale. For example, a foot measure applied to the map, shows distance from center of Unit 3158 (Aberdeen, S. D.) to Unit 3334 (Abilene, Tex.) is 5¼ inches; applying the foot rule to *Zone* Scale, **we see that the rate between these Units is to be calculated on the Fifth Zone basis.**

Parcels subject to the pound rates, mailed for delivery within the first or second zone, are, when the distance by the shortest regular mail route from the office of origin to the office of delivery is 300 miles or more, chargeable with postage at the rate of 8 cents for the first pound and 2 cents for each additional pound, a fraction of a pound being computed as a full pound.

On parcels collected on rural-delivery routes the postage will be 2 cents less than shown in the table, provided they are indorsed "Mailed on rural route" to show that they are not subject to the additional charge.

To secure special attention, transportation and immediate delivery, package must be marked "Special Handling" and 25 cents additional postage affixed to the package. This in addition to regular rates.

PARCEL POST REGULATIONS

CLASSIFICATION, INSURANCE AND C. O. D. FEATURES. WRAPPING, ETC.

Fourth-class Matter, known as domestic parcel-post mail, includes all parcels over 8 ounces in weight containing circulars, books, catalogues, and other matter wholly in print, together with merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, and all other mailable matter not embraced in the first and second classes. The same matter in parcels weighing 8 ounces or less is embraced in third-class mail on which the *rate of postage* is 1½ cents for each 2 ounces or fraction of 2 ounces except for books (including catalogues) having 24 pages or more, seeds, cuttings, bulbs, roots, scions, and plants, on which the rate is 1 cent for each 2 ounces or fraction thereof, up to and including 8 ounces, to be fully prepaid.

Rates of Postage on Fourth-class Matter (over 8 ounces)—To be Fully Prepaid—are by the pound, according to distance or zone, a fraction of a pound being computed as a full pound, and in addition a service charge of 2 cents for each parcel except upon those collected on rural delivery routes. These rates, *including the 2-cent service charge,* are shown in the following table and paragraph (*a*):

On parcels collected on rural delivery routes the postage will be 2 cents less than shown in the foregoing table, provided they are indorsed "Mailed on rural route" to show that they are not subject to the service charge.

Special handling.—On payment of 25 cents postage in addition to the ordinary postage and the 2-cent service charge, fourth-class parcels indorsed "Special handling," preferably in the space immediately below the postage stamps and above the address, or which bear the special 25-cent postage stamp provided for such purpose, will receive the expeditious handling, transportation, and delivery accorded to mail of the first class. This 25-cent special-handling postage charge applies to all parcels containing day-old chicks or baby alligators, which, because of their character, must be given special attention in handling, transportation, and delivery, as well as to other parcels which the sender indicates shall be so treated. The special-handling charge does not include special delivery.

Zones—Postal Guide and Keys.—For parcel-post purposes the United States is divided into units of area 30 minutes square, which form the basis of eight postal zones. The unit numbers are shown in the State list of post offices in the Official Postal Guide, which, cloth bound, may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C., for $1, delivered to any address. Zone keys making maps unnecessary are furnished free to purchasers of the Guide. To ascertain in which zone a post office is located from the office of mailing, first find the unit number of the office of address and then refer to the parcel-post zone key for the mailing office.

The local rate applies to parcels mailed (1) at any post office for local delivery at such office; (2) at any city letter carrier office, or at any point within its delivery limits, for delivery by carriers from that office, and (3) at any post office from which a rural route starts, for delivery on such route, or when mailed at any point on a rural route for delivery at any other point thereon, or at the office from which the route starts, or for delivery on any other rural route starting from the same office.

Alaska, Hawaiian and Philippine Islands, etc.—The eighth zone rate applies (1) between the United States and the Hawaiian Islands; (2) between any two points in Alaska and between any point in Alaska and any other point in the United States; (3) between the United States and the Canal Zone; (4) between the United States and the Philippine Islands; (5) to, from, or between Guam, Tutuila, and Manua and other islands of the Samoan group east of longitude 171° west of Greenwich, and the United States and its other possessions; (6) between the United States and its naval vessels stationed in foreign waters; (7) to or from any other places where the United States mail service is in operation.

The Special-delivery Fees are 10 cents for parcels not exceeding 2 pounds; 15 cents for parcels over 2 pounds but not exceeding 10 pounds; and 20 cents for parcels weighing more than 10 pounds, such fees being in addition to the regular postage and, in the case of fourth-class matter, the service charge and the special-handling postage when applicable.

The Limit of Weight of fourth-class matter is 70 pounds for parcels mailed for delivery within the first, second, and third zones, and 50 pounds for all other zones, including Manila, Philippine Islands, but parcels for other places in those islands (except Iloilo, Cebu, and Zamboanga, for which the limit is 44 pounds) may not exceed 20 pounds. Shipments by one sender to one addressee on the same day, where a star-route haul is involved, are limited to 200 pounds, but this does not apply to perishable matter.

Limit of Size.—Parcel-post matter may not exceed 84 inches in length and girth combined. In measuring a parcel the greatest distance in a straight line between the ends (but not around the parcel) is taken as its length, while the distance around the parcel at its thickest part is taken as its girth. For example, a parcel 35 inches long, 10 inches wide, and 5 inches high measures 65 inches in length and girth combined.

Name and Address of Sender.—A parcel of fourth-class matter may not be accepted for mailing unless it bears the name and address of the sender, which should be preceded by the word "From" and be less conspicuous than that of the addressee.

Additions to Fourth-class Mail.—There may be placed on fourth-class matter, or on the wrapper or cover, tag, or label, any marks, numbers, names, or letters for purpose of description. There may be written on the blank leaves or cover of any book a simple manuscript dedication or inscription not in the nature of personal correspondence. Space sufficient for a legible address, postmark, the necessary postage stamps, and any words necessary for forwarding or return, must be left on the address side of the parcels.

Inclosures.—There may be inclosed with fourth-class matter a written or printed invoice showing the name and address of the sender and of the addressee; the names and quantities of articles inclosed, together with inscriptions indicating, "for purpose of description," the price, style, stock number, size, and quality of the articles; the order or file number, date of order, and date and manner of shipment; and the initials or name of the salesman, or of the person by whom the articles were packed or checked.

Inscriptions, such as "Merry Christmas," "With best wishes," "Do not open until Christmas," or words to that effect may be written on fourth-class mail, or on a card inclosed therewith.

Public Library Books, otherwise mailable as parcel-post matter, may bear any printed or written mark constituting a necessary description for the purpose of a permanent library record.

Communications Attached to Parcels.—When it is desired to send a letter with a parcel on which postage at the fourth-class rate has been fully prepaid, the letter may be placed in an envelope fully prepaid at the first-class rate and addressed to correspond with the address on the parcel and then be tied to or otherwise securely attached to the outside of the parcel in such manner as to prevent separation therefrom and not to interfere with the address on the parcel. The stamps to cover the postage on the parcel must be affixed to the wrapper of the parcel, and those to pay the postage on the letter must be affixed to the envelope of the letter. Parcels to which letters are so attached are treated as fourth-class matter. Only one special-delivery fee is required on such parcels sent as special-delivery matter. Letters may be attached to second or third class matter under the same conditions. Combination envelopes or containers having two compartments may be used for this purpose.

Sealed Parcels of Merchandise or other fourth-class matter may be mailed at the fourth-class rates of postage provided the parcels are labeled *in printing* to show the nature of contents, as, for example, "MERCHANDISE — FOURTH-CLASS MAIL," together with the name and address of the manufacturer, producer, or shipper, and the inscription "Postmaster: This parcel may be opened for postal inspection if necessary."

Proprietary Articles of Merchandise, such as harmless medicinal preparations, soaps, tobacco, food products, etc., put up in fixed quantities, in original sealed packages, by the manufacturer or dealer so as to allow examination of the packages in their simplest mercantile form and labeled in printing so as to show the nature of contents, quantity, and name of the manufacturer or dealer, are mailable at the fourth-class rates of postage. If such sealed packages are inclosed in an outer wrapper, the latter must not be sealed unless it is also labeled in printing in the manner indicated.

Meats and Meat-food Products.—Before meat or meat-food products of cattle, sheep, swine, goats, or horses may be accepted for mailing from one State or Territory to another State or Territory, the certificate of inspection or exemption required by section 477, Postal Laws and Regulations, must be filed with the Postmaster. Such certificate must be prepared and furnished by the sender.

Game.—The dead bodies of any wild animals or birds, or parts thereof, including furs, skins, plumage, etc., lawfully killed and offered for shipment, may be accepted for mailing only when the parcels are plainly marked to show the actual nature of the contents and the name and address of the sender. They must be in good shipping condition and have no offensive odor. The dead bodies, or parts thereof, of any wild animals or birds which have been killed or offered for shipment in violation of the laws of a State, Territory, or District, are unmailable, persons sending such articles and the addressees knowingly receiving them in violation of the law being liable to a fine of not more than $200.

Plants and Plant Products, including all field-grown florists' stock, trees, shrubs, vines, cuttings, grafts, scions, buds, fruit pits and other seeds of fruit and ornamental trees or shrubs, and other plants and plant products for propagation, except field, vegetable, and flower seeds, bedding plants, and other herbaceous plants, bulbs and roots, may be admitted to the mails only when accompanied with a certificate from a State or Government inspector to the effect that the nursery or premises from which such stock is shipped has been inspected within a year and found free from injurious insects, and the parcel containing such stock is plainly marked to show the nature of the contents and the name and address of the sender.

When the United States Department of Agriculture, under authority of the plant quarantine act, quarantines any State or area on account of a plant disease or insect infestation, the mailing of plants or plant products from such State or area is subject to the restrictions imposed by such order.

Plants and plant products addressed to places in Arizona, Arkansas, California, District of Columbia, Florida, Georgia, Hawaii, Idaho, Mississippi, Montana, Oregon, Utah, and Washington are subject to terminal inspection before delivery to addressee; and all parcels containing plants or plant products, when sent to such places, must be plainly marked on the outside to show the nature of contents, failure to do so being an offense punishable by a fine of not more than $100.

Place of Mailing.—Parcels of fourth-class matter must be mailed at a post office, branch post office, named, numbered, or lettered station, or delivered to a rural or other carrier duly authorized to receive such matter; they are not mailable at railway post office cars.

Sender's Receipt for Ordinary Parcel.—When desired, a receipt is furnished the sender of an ordinary fourth-class parcel by the mailing office upon payment of one cent. This fee does not insure the parcel against loss, and no receipt is obtained from the addressee on delivery. If either of the latter facilities is desired, the insurance service should be patronized.

Insurance and Collect-on-Delivery Services

(Domestic and International)

Domestic Insurance Service and Insurance Service to Canada—Fees and Limits of Indemnity.

—Third and fourth class matter mailed at and addressed to any post office in the United States or its possessions, or on or to naval vessels, with the exception of parcels mailed in (not for) the Philippine Islands, may be insured against loss, rifling, or damage for value up to $5 for a fee of 5 cents, $25 for 8 cents, $50 for 10 cents, or $100 for 25 cents, in addition to the postage, both fee and postage to be prepaid. Third and fourth class parcels (except those containing precious stones, jewelry, money, securities, and other matter usually of small bulk but of considerable intrinsic value) and Postal Union "prints" may be insured to Canada.

Registration of Certain Valuable Parcels Suggested.—Because of the additional safeguards provided for registered mail, valuable articles of the third or fourth class, such as packages of currency, sacks of coin, jewelry, precious stones, and articles of similar nature, should be sealed and sent as first-class registered mail.

Insurance Service to Great Britain and Northern Ireland. — International parcel-post packages addressed to Great Britain and Northern Ireland may be insured against loss, rifling, or damage for value up to $10 upon payment of a fee of 15 cents, $25 for 20 cents, $50 for 30 cents, and $100 for 50 cents.

Return Receipts for Domestic and International Insured Parcels may be obtained by indorsing the parcels "Return receipt requested" and upon prepayment of a fee of 3 cents in connection with domestic insured parcels and 5 cents (10 cents when not requested at time of mailing) for international insured parcels. Return receipts are not furnished for insured parcels exchanged with Canada. They are not furnished for any C. O. D. parcels, as the remittances show that deliveries have been made.

Domestic Collect-on-delivery Service—Fees and Limits of Indemnity.—Third and fourth class matter may be sent C. O. D. between money-order offices of the United States, its possessions (except Philippine Islands), and naval vessels having money-order service upon payment of a fee of 12 cents in addition to the postage when the amount to be remitted does not exceed $10; or upon payment of a fee of 15 cents when the amount to be remitted does not exceed $50; or upon payment of a fee of 25 cents when the amount to be remitted does not exceed $100. Parcels on which the remittance is $10 or less or $50 or less, but on which, because of the value of the inclosure, insurance exceeding $10 or $50 is desired, may have a 15 or 20 cent fee paid thereon, at the option of the sender, but the sender shall not be permitted to pay a fee of only 12 or 15 cents when the amount to be remitted is greater than $10 or $50, respectively, although willing to accept indemnity for only $10 or $50 as the case may be. The remittance is made by post office money order and the money-order fee is collected from the addressee. A C. O. D. tag furnished by the postmaster must be filled in by the sender and attached to each parcel.

International C. O. D. Service to Mexico.—Registered international parcel-post packages, registered Postal Union samples of merchandise and registered packages of merchandise weighing not more than 8 ounces and bearing postage at the rate of 1½ cents for each 2 ounces or fraction of 2 ounces, may be sent collect on delivery from any money-order post office in the United States to any money-order post office in Mexico when the amount of C. O. D. charges or the amount of insurance desired is not over $10 upon prepayment of a fee of 30 cents, from $10.01 to $50 for a fee of 45 cents, and from $50.01 to $100 for a fee of 60 cents, in addition to postage.

Examination of Contents of a C. O. D. Parcel (domestic or international) by the addressee is not permitted until it is receipted for and charges paid.

Where Parcels may be Presented for Insurance or to be sent C. O. D.—Parcels may be insured at any post office or station thereof or by rural carriers upon request. They may be sent C. O. D. at any post office or station transacting money-order business or by rural carriers attached to money-order post offices. Parcels intended for insurance or to be sent C. O. D. must not be dropped in street mail boxes or ordinary mail drops.

Unordered Insured and C. O. D. Shipments.—Parcels containing matter offered for sale addressed to prospective purchasers who have not ordered same or authorized their sending will not be insured. Should such matter be received in the postal service, indemnity for the loss, rifling, or damage thereof will not be paid. C. O. D. shipments should in all cases be based upon bona fide orders for the contents of the parcels, or be in conformity with agreements between senders and addressees.

Return and Forwarding Postage Guaranteed by Senders.—*All domestic insured and collect-on-delivery parcels* are accepted with the understanding that the senders, in every instance, guarantee any return or forwarding postage which may be necessary when such parcels become undeliverable. All domestic insured and collect-on-delivery parcels should bear, in connection with the senders' return cards, pledges guaranteeing return and forwarding postage; but regardless of whether or not the parcels bear such pledges, they shall be treated as though the pledges were on the parcels.

Indemnity.—Indemnity for domestic insured and C. O. D. parcels is paid for the actual value of lost, rifled, or irreparably damaged articles (or in the case of C. O. D. mail for failure to remit charges if delivery is effected) within the limit provided by the fee paid or for the actual, usual, direct, and necessary cost of repairing partially damaged articles, provided they were packed and indorsed in accordance with the postal requirements. Postage when claimed, but not fee, may also be allowed as part of indemnity in case of complete loss, irreparable damage to entire contents or rifling of entire contents.

Preparation and Wrapping of Mail Matter

Examination.—Fourth-class matter must be so wrapped or enveloped that the contents may be examined easily by postal officials. When not so wrapped, or when it contains writing not authorized by law, the matter is subject to first-class postage.

Nailed boxes.—Parcel-post mail may be inclosed in boxes to which the lids are nailed or screwed, provided the lids can be readily removed with a chisel or screw driver for examination of contents.

Wrapping.—All matter should be securely wrapped so as to bear transmission without breaking, or injuring mail bags, their contents, or the persons handling them. Many articles are damaged in the mails for the reason that they are not properly wrapped to withstand the necessary handling. Parcels improperly wrapped will not be accepted for transmission in the mails.

Umbrellas, canes, golf sticks, and similar articles must be reinforced by strips of wood or otherwise sufficiently wrapped to withstand handling and transportation.

Hats must be packed in strong boxes; if in ordinary pasteboard hat boxes, they must be properly crated.

Cut flowers, candies, etc., should be inclosed in strong and suitable boxes.

Stove castings and pieces of machinery should be protected with excelsior or similar material and wrapped in cloth or strong paper or be properly boxed or crated.

Mailable hides and pelts must be thoroughly wrapped to prevent the escape of grease.

Harmful Articles not absolutely excluded from the mails, but which, from their form or nature, might, unless properly secured, destroy, deface, or otherwise damage the contents of the mail bag, or harm the person of anyone engaged in the Postal Service, may be transmitted in the mails only when packed in accordance with the postal regulations.

Sharp-pointed or sharp-edged instruments or tools must have their points and edges protected so that they can not cut through their covering, and be thoroughly wrapped.

Powders and all pulverized dry substances must be so wrapped that none of the contents of the package will sift out.

Pastes, salves, etc., not easily liquefiable must be inclosed in water-tight containers and placed in strong boxes and securely wrapped.

Liquids.—Admissible liquids and oils in packages not exceeding the limit of weight of fourth-class matter will be accepted for mailing when intended for delivery at the office of mailing or on a rural route starting therefrom when inclosed in securely closed containers, provided it is not necessary to transport them over steam or electric railways.

Admissible Liquids and Oils, Pastes, Salves, or Other Articles Easily Liquefiable will be accepted for mailing, regardless of distance, when they conform to the following conditions **and the containers are marked "Fragile":**

When in strong glass bottles holding 4 *ounces or less,* the total quantity sent in one parcel shall not exceed 24 ounces, liquid measure. Each bottle shall be wrapped in paper or other absorbent substances and then all placed in a box made of cardboard or other suitable material and packed in a container made of double-faced corrugated pasteboard of good quality. The corners of the container must fit tightly and be reinforced with tape so as to prevent the escape of any liquid if the contents should be broken, and the whole parcel shall be securely wrapped with strong paper and tied with twine. Single bottles of liquid holding 4 ounces or less may also be packed as prescribed in the following paragraphs:

When in glass bottles holding more than 4 *and not more than* 16 *ounces,* the bottle must be very strong and must be inclosed in a block or tube or metal, wood, or papier-maché or similar material; and there must be provided between the bottle and the block or tube a cushion of cotton, felt, or other absorbent. The block or tube, if of wood or papier-maché, must be at least one-eighth of an inch thick for bottles holding 8 ounces or less, and at least three-sixteenths of an inch thick for bottles holding more than 8 ounces. The block or tube must be rendered water-tight by an application on the inside of paraffin or other suitable substance and must be closed by a screw-top cover with sufficient screw threads to require at least one and one-half complete turns before it will come off. The cover must be provided with a washer, so that no liquid could escape if the bottle should be broken. Such bottles may also be packed in strong and tight receptacles of wood, metal, or waterproof corrugated pasteboard if surrounded with bran, sawdust, or other absorbent material in sufficient quantity to absorb all the liquid if the bottle should be broken.

Mailable liquids in quantities of more than 16 *ounces,* when in securely sealed glass bottles, will be accepted for mailing when packed in strong boxes and surrounded with sawdust or other suitable substance to protect the contents from breakage. All such packages to be marked "Fragile—This Side Up," or with similar inscription, and to be transported outside of mail bags.

Liquids in securely closed metal containers may be mailed when suitably boxed or crated; but when in extra-strong metal containers, such as heavy milk cans, the boxes or crating may be omitted.

Fragile Articles.—Articles easily broken must be very securely wrapped for safe transmission and marked "FRAGILE." Among such articles are: Amber, cakes, cameras, candies, candlesticks, chalk, china, cigars, clocks, combs, crockery, delicate mechanisms, dolls, drawings, fans, flowers, fountain pens, glass, hats, instruments of precision, jewelry and jewel cases, maps, millinery, musical instruments, paintings, photographic and sensitive paper and films, pipes, phonographs and phonograph records, plaster of Paris articles, plumes, pottery, porcelain, test tubes, thermos bottles and other temperature-conserving vessels, toys of a fragile nature, typewriters, watches, wax articles, etc.

Glass, crockery, fragile toys, and other fragile articles must be so packed as to prevent the escape of particles or pieces from the packages if broken in transit.

Cigars should be packed in a manner to prevent damage by shock or jar, and must be in good shipping condition.

Maps, drawings, paintings, etc., must be suitably protected with stout material to prevent damage. When not flat, they should be rolled around a stout stick and carefully wrapped or inclosed in a strong pasteboard tube.

All such articles must be marked "FRAGILE."

Eggs will be accepted for mailing when packed in crates, boxes, baskets, or other suitable containers so constructed as properly to protect the contents. Such packages to be transported outside of mail bags. All parcels containing eggs shall be plainly marked "EGGS." When necessary, they should be marked "THIS SIDE UP." **Eggs for hatching** will be accepted for mailing under conditions which may be ascertained from the postmaster.

Perishable Articles must be marked ""PERISHABLE," and it is advisable that they be sent as special-delivery matter by affixing stamps for the special-delivery fee in addition to the regular postage, thus expediting their delivery. Articles likely to spoil within the time reasonably required for transportation and delivery will not be accepted for mailing.

Butter, Lard, and Perishable Articles, such as fish, fresh meats, dressed fowls, vegetables, fruits, berries, and articles of a similar nature, which decay quickly, will be accepted for mailing to any office which in the ordinary course of mail they can reach without spoiling, when inclosed in crates, boxes, baskets, or other suitable containers, so constructed as properly to protect the contents and prevent the escape of anything therefrom. If necessary for safe shipment, such parcels will be transported outside of mail bags. Berries, fruits, and vegetables will not be accepted unless in good dry shipping condition.

Unmailable Matter.—All matter is unmailable which is of a harmful nature, such as poisons; explosives and corrosive articles; matches; live animals, fowls, insects, and reptiles; articles exhaling a bad odor; and vinous, spirituous, and malt liquors. The postal laws provide a severe penalty for the mailing of harmful articles and intoxicating liquor.

Forwarding and Return.—When fourth-class matter is forwarded or returned to the sender as undeliverable, it is chargeable with postage anew at the rate applicable between the office of original address and the one to which it is forwarded or returned. Such postage must be prepaid except in the case of perishable matter of obvious value or that which bears the sender's pledge to pay the forwarding or return postage, or both, in which event the matter is forwarded or returned and the postage therefor collected on its delivery. No additional insurance or C. O. D. fee is required for the forwarding or return of insured and C. O. D. parcels.

Requests for Further Information should be addressed as follows:

Third Assistant Postmaster General, Division of Classification, relative to the classification and admissibility of matter as parcel-post mail, rates of postage, limit of weight and size, manner of addressing and wrapping so as to permit examination, permissible inclosures and additions, attaching communications to parcels, etc., and for additional copies of this circular.

Third Assistant Postmaster General, Division of Registered Mails, relative to the insurance, "C. O. D." and registry features, and senders' receipts for ordinary parcels.

Second Assistant Postmaster General, Division of Railway Mail Service, relative to the admissibility to the mails and wrapping of matter which from its form or character would be liable to injure the mails or the person of postal employees

INDEX
CITIES AND TOWNS OF THE UNITED STATES

LATEST CENSUS

In this compilation the official population figures, as determined by the Fourteenth (1920) Census of the United States, are given for all cities villages and boroughs separately enumerated by the government officials; of the places not separately enumerated by the Census Bureau, and for which there are no government figures obtainable, recent estimates, supplied by local officials and by other reliable authorities, are given. Capitals of states are printed in capital letters, and places having one hundred or more inhabitants are named. The index references enclosed in parentheses, indicate location of city or village on the accompanying maps.

Some comparatively unimportant places have been omitted from the maps to avoid crowding and consequent indistinctness in the engraving; such omitted towns will be found in the list, and their situation on the map, in each case, may readily be determined by means of the index-reference letters and numbers.

INDEX OF DOMINION OF CANADA

LATEST CENSUS

Capitals of provinces are printed in capital letters, The index references enclosed in parentheses, indicate location of city or village on the accompanying maps; those marked with an asterisk (*) refer to maps of Ontario, Northern Part

Some comparatively unimportant places have been omitted from the maps to avoid crowding and consequent indistinctness in the engraving; such omitted towns will be found in the list and their situations on the map, in each case, may readily be determined by means of the index-reference letters and numbers.

INDEX OF CITIES AND TOWNS

This alphabetical list of cities and towns gives statistics of population based on the latest official census reports. Each line begins with the name of a place, followed by the name of the country or state, the population, the index references and the plate number. The index references indicate the location of the city or town on the accompanying map plates, as explained on page II. Where a place may be known under different names or by various spellings of the same name, the different forms have been inserted to a large extent, in the index. This applies particularly to the new states of Esthonia, Latvia, Lithuania, Czechoslovakia, and others where bilingual names of the same place exist. Where the same place name occurs two or more times within one country, each is followed by the name of a minor political division in italics.

Where space on the map has not permitted giving the complete form of a name, the extended form is shown in this index. Some comparatively unimportant places have been omitted from the maps to avoid crowding and consequent indistinctness in the engraving; such omitted towns will be found in the list and their situation on the map, in each case, may readily be determined by means of the index references.

Capitals of countries and states are designated by asterisks *. Populations of cities, including suburbs, are designated by daggers †.
